

# PAPER BELL TARGET

# 6 SHOTS @ 6.4m/21ft

Print actual size / no scaling on US Letter size paper.

### Scoring:

The bull scores 5, the next ring 4, the next ring 3, and the final ring 2. Outside of that the score is ZERO.

In the case of split shot the majority of the mark left by the pellets decides the score and normally scores the higher amount.

In some leagues a pellet going down the hole without leaving a mark scores 5.1.

If the "Bell" does not ring the lower 4 is the score.

The bull is set at around shoulder height from the floor, in most leagues this is 1.525m/5ft but can vary.
